

Fishing regulations

rules for the waterfront

To ensure that everyone can continue to enjoy fishing and that the fish population remains healthy, we have established the following rules. Compliance with these rules is monitored regularly.

You do not need an official permit to fish in our fish pond, but you must adhere to the following rules:

- Fishing is only permitted for recreational anglers who have registered at reception.
- You are not allowed to keep any fish in your possession; any fish caught must be returned to the pond immediately.
- All fish must be handled with care. Fish may only be handled with wet hands and a hook remover.
- Live nets or storage bags are not permitted.
- A maximum of 3 fishing rods are permitted per pitch. Fishing lines may only be cast straight ahead from the pitch so as not to disturb your neighbors.
- Feeding is only permitted to a limited extent due to water acidification and the health of the fish.
- If you would like to share photos of the fish with the park, you can do so at any time via the email address info@krieghuusbelten.nl.
- The Krieghuusbelten Family Holiday Park cannot be held liable in any way for damage of any kind resulting from compliance with the above rules.

We wish you a pleasant stay and a good catch.
